RSVP if possible so we know how much food to buy!

This event is the kickoff for a club project that will be completed at the OVWG Symposium in October. Even if you can't attend the picnic, please make as many tops as you can! Last year we turned 428 tops! Can we top 1,000 by October this year? If our membership averaged 7 tops each we could reach our goal. As part of the Friday night entertainment at the Cinci Symposium, we will be turning tops and encouraging other turners at the event to come up and

join us. Tops will be presented to Dick Zellar who will deliver them to an organization that will give them to hospitalized children. Never turned a top? No problem! Come to this event or give me a call and one of our club members will show you how. Tops are a great project for new beginners. In fact, young and old alike think they're just TOPS!
