

CENTRAL OHIO WOODTURNERS

September 2003

Message From the President

Welcome back everyone – I hope you all had a pleasant and relaxing summer, and found plenty of time to spend in the shop. Whether you turned a lot or a little, please share some of the results with us in the September show-and-tell, which has the theme: “What I did in my summer vacation”. Of course, as always, if you have something to bring that doesn’t relate to the theme, by all means, bring it! All is welcome.

The 2003/2004 season is shaping up to be a great year for demonstrations, and we’re going to start it off with a bang – six bangs, actually. The September meeting will feature spindle turning, basic bowl turning, natural-edged turning, hollowing, sharpening, and an expose of the tools, jigs, and techniques used to turn the incredible star-inside-a-sphere. It will be a veritable smorgasbord of turning topics, with plenty of hands-on opportunities to try things out yourself. If you are new to turning, make sure to check out the sharpening demo, and bring some of your own tools to work on. We guarantee you’ll go home with sharp tools.

There are several opportunities coming up to demonstrate at local wood working stores: Rockler in Bexley on September 22, Woodcraft in Hilliard on October 4, and Wood Werks in Columbus on October 10, 11, and 12. We will have sign-up sheets for these events at the meeting. Please note that you don’t need to be an expert to participate in one of these events. If you have been turning for a while and have never done a public demonstration, you should consider signing up. They are great fun, and a great learning opportunity for both the public and for the participants.

I hope to see you at the September meeting, and as I am writing this on the eve of the OSU season opener: Go Bucks!

- Tip

September Meeting

Our meeting will be held The Ohio State University Industrial Technology Bldg., located at 1100 Kinnear Road, Columbus, Ohio on Tuesday, September 9, at 7:00 p.m.

Agenda

The September meeting will feature spindle turning, basic bowl turning, natural-edged turning, hollowing, sharpening, and an expose of the tools, jigs, and techniques used to turn the incredible star-inside-a-sphere.

Fellow woodturners,

Kurt Waninger, a member of the COW, recently lost his wife to cancer. Kurt has several Rockler \$50 gift certificates that he would like to turn into cash. Unfortunately, Kurt needs the cash to help support his two children ages 5 & 8 more than he needs the woodworking supplies. If you plan to buy something from Rockler, could you help Kurt out by buying the gift certificates from him and then spend them at the Rockler store. The certificates will be available at the COW meeting on Sept. 9th or directly from Kurt at kwaninger1@yahoo.com

Chuck Kemp,
Vice-President

ITEMS FOR SALE

As a past member of the COW I respectfully wish to sell the contents of my shop as I find I am in fact a knitter, and not a turner. The items for sale are as follows:

- Mini Jet Lathe- like new-used a couple of times
- 9" delta Band Saw new with table
- 12" Drill Press with table-
- One Way Chuck-never used
- Jet 8" double side bench grinder
- 10 long handle turning tools-2 sharpened once...rest new
- 3 short handle-used

Please contact me by email: kratchford@insight.rr.com

-Kitty

FOR SALE: VIC MARK Mini wood lathe. No Motor.

W/Scroll Chuck

Sorby Chisels

Sorby Miniature Chisel Set

This is similar to the lathe that the club uses for demos

Contact Dick Daugherty ----- Tel: 740-965-2455

I'm a member of the Northcoast Woodturners in Cleveland.

I just bought the new OneWay 1640 and I'm selling my lathe. It's a 12" Rockwell/Delta Heavy Duty, variable speed, reversible, new Baldor motor and bearings, great shape and heavy, and lots of accessories. I'm asking \$1,100 or best offer. I'm in Chagrin Falls, Ohio.

Thanx,

Howard Kasdan
